

2021 NCFL GRAND NATIONAL TOURNAMENT May 28 – 30, 2021

DUO Procedure for Coaches, Competitors, and Judges

- As part of our commitment to equity, DUO competitors must be on separate cameras and in separate rooms, even if the performers are related.
- If the competitors wish to make an asynchronous backup to use in the event of a technical problem, then the video MUST follow the live performance guidelines.
- Students should go to the DUO HOLDING room available from their TABROOM account. This room will open on the Friday of the tournament.
 - Under no circumstance should a DUO go directly into the competition room.
- Teams will be sent out of the DUO HOLDING room and into their Campus competition room by a tournament official at 12 minute intervals. The schedule will be published on the SPEECH LIVE DOC.
- The DUO team should enter the room with the person on the judge's right entering first and the person on the judge's left entering second (the teams should coordinate with each other).
- The team and judges should confirm that students are correctly situated, and the team should give final confirmation by virtually pointing at each other. (If necessary the team can leave and reenter the room to get the position correct.
- One of the judges will coordinate time signals if the team requests them.
- When the team has completed performing, both partners should return to the DUO holding room and tell the tournament official to send in the next team. Then they are free to leave and wait for the next round
- This continues until the round is over.

DUO VIEWS FROM JUDGE AND CONTESTANT PERSPECTIVES

*** CAMPUS puts the viewer in the bottom left position always. ***

This assumes the judges are in the room waiting for the DUOs to ARRIVE.
